# LED Pendant

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-855-855-8926

Please Note:
- This Kuzco LED fixture comes with pre-wired LED module(s)
- Unless instructed, Do Not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage
- For dimming, an ELV (Electronic Low Voltage) or TRIAC type of dimmer is required
- 120V input

1. Remove the fixture from its original packaging. Next, remove the mounting plate **(1c)** from the canopy **(2a)** by removing the screws **(2b)**. Attach the mounting plate **(1c)** to the electical junction box **(1a)** using the two screws **(1d)** provided in the hardware package.

2. Install the glass **(4b)** to the LED module **(4a)**. Next, thread the metal tube **(3e)** through silicon **(3d)**, glass **(3c)**, silicon **(3b)** to the nut **(3a)**. [**Caution:** Do not tight the glass by metal too hard]. Before you mount canopy to the mounting plate, select the desired length you would like the fixture to hang down from the ceiling. To set fixture hanging height, simply push in the sleeve **(2c)** at the canopy.

3. Make proper electrical connections (**black** to **hot** "L", **white** to **neutral** "N", **ground** to **"GND")** with wire nuts **(1b)** provided in hardware package and place driver **(4a)** inside canopy **(2a).** Attach the canopy **(2a)** to the mounting plate **(1c)** and secure with screws **(2b)**.

4. You have now completed the installation of your fixture, enjoy.
